IT'S A NEW DAY IN RICHMOND!

On Saturday May 10th, 2014 Richmond voters will have the opportunity to determine the course of their city's future. It is an important and historic election that will likely have an impact on the lives of several generations of Richmond residents. For decades the governance of the City of Richmond has been under the control of a select few. As a result little has changed and Richmond has failed to take advantage of the economic opportunities available in a growing community with vast resources. Economic growth has spread to Rosenberg, Sugar Land, Katy and Fulshear but not to Richmond. Simply put, the policies of the past have impeded Richmond's ability to grow. As a result Richmond's tax rate has remained one of the highest for any municipality in Fort Bend County. New restaurants, retail shopping centers and other goods and services have gone elsewhere. In this election Richmond voters will have a clear choice between the failed policies of the past and an opportunity to make a positive change in Richmond's future.

Mayor Moore, incumbent Commissioner Dostal and Commission Candidate Glen Gilmore (former city manager) represent more of the same for Richmond residents- high taxes and limited growth. If elected the so called "Hillcrest 3" (they all live on the same street) will negatively impact Richmond's future for years.

**We therefore endorse and urge Richmond voters to cast their vote as follows:
For Mayor - Gary Gillen**

Local businessman and community leader Gary Gillen represents the best chance for Richmond to compete in today's economic environment. He has a vision for Richmond's future and a track record of achievements to back it up.
**For Commissioner
Milton Wright and Tree Davis**

Former Fort Bend County Sheriff Milton Wright has years of administrative experience which will be an asset as Richmond moves forward.
Tree Davis will ably represent the interests of Richmond's minority community. This segment of Richmond's voters has been under-represented for decades and Davis' election will rectify this omission.

STOP THE HILLCREST THREE
